Effective September 16, 2019 Public Act 23 of 2019 (formerly House Bill No. 4055, which an amendment to The Land Division Act 288 of 1987) will take effect. This bill places tighter regulations on property divisions, specifically divisions where delinquent taxes or special assessments are due. According to the amended act before a parcel division can take place one of the two following requirements must be met:

Requirement 1: The parcel subject to the proposed division is certified by the County Treasurer to have no delinquent taxes or special assessments due. In order to obtain this certification the requesting party will have to complete and submit a Land Division Tax Payment Certifications Form in person to the County Treasurer's Office along with a \$5.00 certification fee as required by the legislation.

Requirement 2: Any delinquent taxes or special assessments due on parcels subject to the proposed division are apportioned by the township or city assessing officer.

There are no requirements placed on combinations according to Public Act 23. Despite this, we are still going to discourage the combining of parcels with delinquent taxes.

We are recommending that the property owner visits our Treasurer's Office early in your land division process as non-certifications may change how you proceed, such as whether you need to prepare to apportion the delinquent taxes or potentially deny the applications. When sending an approved land division to the Treasurer's office for processing please include either a copy of the Land Division Tax Payment Certification Form or a letter explaining that delinquent taxes have been apportioned.

I've attached a copy of our Land Division Tax Payment Certification Form as well as a copy of Public Act 23 for your review. We appreciate everyone's assistance in implementing this new legislation.

 - B. Proposed property lines with approximate dimensions
 - C. Public utility easements to each proposed division
 - D. Road accessibility for each proposed division
3. Compliance with the parcel depth to width ratio requirements of the local ordinance, with an exception for the parcel retained by the proprietor. In the absence of a local ordinance, a 5-1 ratio for parcels under 10 acres applies.
4. Compliance with the parcel width requirements of the local ordinance.
5. Compliance with the parcel area requirements of the local ordinance.
6. The proposed land division must be accessible by:
 - A. Public road frontage which meets the M.D.O.T., Road Commission, or municipal driveway location standards; or

7. The proposed land division cannot create more divisions than the number allowed by the Land Division Act for the parent parcel.
8. Easements from each proposed division to existing public utility facilities, if the proposed division is to be a "development site". A "development site" is any land which is used or is intended to be used for building.

Once all of the above requirements have been met, the municipality must grant approval within 45 days.
